

Antun Jurinić, univ.mag.physioth. is the Chief Physiotherapist of the Department of Physical Medicine and Rehabilitation at Sveti Duh Clinical Hospital in Zagreb and a lecturer at the Faculty of Health Sciences, Libertas International University, Zagreb.

An author of numerous scientific papers, professional manuals, and books, his most recent publications include *Physiotherapy Propaedeutics* (as editor and author) and *History of Physiotherapy in Croatia* (as contributing author).

Mr Jurinić served as president of two national physiotherapy organizations: the Croatian Association of Physiotherapists (1998–1999) and the Croatian Chamber of Physiotherapists (2000–2015).

His editorial work includes more than ten conference proceedings and editorship of the journals *Fizioterapija* (1996–2000) and *Fizioinfo* (2003–2006).

Professional interests focus on dynamic spinal stability, the phenomenology and theory of physiotherapy, and problem-based learning in physiotherapy education.

He received the HZF Golden Award for exceptional contribution to the development of physiotherapy in 2005 and the Lifetime Achievement Award in 2025.
