

Asst. Prof. Gregor Omejec, PT, PhD, is a Physician Associate and researcher at the Institute of Clinical Neurophysiology, University Medical Centre Ljubljana. He is a recognized expert in peripheral nerve and muscle ultrasound, with over 15 years of experience in clinical practice and research. He is an active member of the research program *Physiological Mechanisms of Neurological Disorders and Diseases* at the Institute of Clinical Neurophysiology and participates in four research projects funded by the Slovenian Research and Innovation Agency. His primary research interests include compressive neuropathies, polyneuropathies, and respiratory dysfunction in neurological patients. Dr. Omejec has a prolific research record, with 27 scientific papers published in international journals indexed in SCI/SCIE, including 15 as first author and 8 as last author. He also serves as a mentor to numerous undergraduate, master's, and doctoral students.
